(New)							☐			0

3. Change font style to be “Georgia” and size to 12. Change table style and use color combination of your choice, and sort them in ascending order using names
4. Create a form using form wizard and select the fields as shown below;

5. Make your form look like the one below. Add your name at the end of the tabs. Add 5 buttons and arrange them as shown. Add two more textbox for user ID and Password. Style them as shown and group them inside an option group named **“USER VERIFICATION TAB”**
6. Add the date at the top right corner and a logo on the top left corner (use any picture available in your PC)
7. Add a toggle button named **“PROCEED”** and another button besides it named **“EXIT”**

8. Create a query named **“CALCULATED QUERY”** using query wizard and link it with the **“STUDENT DETAILS”** table. Create a column to display annual fee, assuming that the fee paid available is done per semester, and a year contains two semesters.
9. Create a final printable report using report wizard and link it to **“CALCULATED QUERY”** with the following details;
 - a. **“TOTAL FEE”** to sum all yearly fees
 - b. Your name at the report footer
 - c. Date at the footer heading besides its name
 - d. Change Report name **“FINAL REPORT”**
 - e. Print your report in landscape and ensure it fits in only one page.
10. Create macros to open the form

(100mks)
